

Delivering Infrastructure Projects. Making Communities Stronger.

Founded in 2011, Artovia is a civil engineering firm with a proven track record of providing quality program/construction management (PM/CM), construction inspection, grant administration and other professional services for infrastructure. Our primary focus is on housing, public buildings/facilities, water/wastewater and transportation.

Our team is known for being very detailed oriented and efficient. This combination results in quality projects completed on time and within budget. Our clients can always count on a straightforward, value-added approach that is personal and consistent with our core values of belief, integrity, excellence and passion.

We are engineers, project managers, construction managers, inspectors and grant experts who believe in our clients and the communities we serve. Our commitment to giving back in the communities where we live and work runs deep. We welcome the opportunity to help our clients deliver projects that make communities stronger and improve quality of life.

SERVICES

CDBG Administration

Administration and environmental services for Community Development Block Grant entitlement, state and disaster recovery (DR) programs.

Constructability Reviews

Review of design drawings and specifications for clarity, completeness and coordination to reduce errors that cause delays and change orders during construction.

Construction Inspection

On-site observations of construction to monitor contractor progress and conformance with the construction contract documents.

FEMA Grant Management

Management and administration for Federal Emergency Management Agency (FEMA) Public Assistance (PA) and Hazard Mitigation Programs.

HUD Section 3 Compliance

Administration and compliance services for projects subject to Section 3 of the Housing and Urban Development (HUD) Act of 1968, which requires low income persons to be given employment and contracting opportunities.

Labor Standards Compliance

Administration and enforcement of the Davis Bacon and Related Acts (DBRA) and other federal labor standards for federally funded construction projects, which require contractors to pay prevailing wages and submit weekly certified payrolls.

Program/Construction Management (PM/CM)

As an owner's staff extension, we help develop construction programs and projects and then manage design through construction to ensure timely delivery of quality projects that meet all requirements and objectives.
